SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Python, C#
Web Technologies: Reactjs, Next.js, Node.js, Expressjs, Flask, .NET, Git
Rest API, SQL, GraphQL, TailwindCSS, Neovim, CMS, Figma

WORK EXPERIENCE

Pohmal Carrier Service
Junior Frontend Developer

06/2022 - 12/2022
Mandalay, Myanmar

- Developed admin panel dashboards and client-side web applications for Pohmal Carrier Service using Next.js, React.js, JavaScript, Node.js, and Material UI.
- Implemented effective data fetching with REST API calls to optimize performance and responsiveness.
- Collaborated closely with senior frontend developers, backend developers, and database teams to deliver real-world web applications under agile software development method.

Nawphire
Junior Frontend Developer

01/2021 - 03/2022
Mandalay, Myanmar

- Transformed UI design prototypes into functionally working and responsive web applications by utilizing Next.js, React.js, JavaScript, Node.js, Material UI, and Tailwind CSS.
- Gained hands-on experience in integrating CMS, API, and third-party services by implementing caching strategies and optimizing API calls, contributing to a 30% improvement in data retrieval time and a 10% cost savings.
- Balanced adherence to senior developer guidelines with additional suggestions to enhance performance and usability. Collaborated closely with UI/UX designers, backend developers, and database teams to craft robust web applications.
